SUMMARY

Recent IT graduate with experience in data analytics, reporting, and business intelligence gained through internships and project work. Proficient in SQL, Excel, Power BI, SAP Analytics Cloud, and Python, with a strong foundation in both data analysis and technical systems. Interested in leveraging this blend of analytical and technical expertise to connect business requirements with data-driven solutions, improve processes, and support effective decision-making.

TECHNICAL SKILLS

Python, SQL, Excel, Power BI, Tableau, SAP Analytics Cloud, Database Design, REST APIs, HTML, Tailwind CSS, JavaScript, TypeScript, React.js, Node.js, Express.js, Next.js, Prisma, AWS S3, Docker, CI/CD Pipeline, .NET 10, C#

WORK EXPERIENCE

Software Engineer | Sprouto Infosolution 05/2026 – Present

- Developing, maintaining, and updating software solutions for platforms including robofy.ai and growby.net.
- Built and optimized applications using .NET 10 and C# to ensure high performance and scalability.
- Collaborated with cross-functional teams to deliver new features and improvements for product growth.

Software Developer Intern | Codetta Digital 01/2026 – 04/2026

- Developed a full-stack e-commerce platform for personalized signage using Next.js, React, Prisma, and Tailwind CSS.
- Restructured product data into category-wise JSON formats and mapped images to product IDs to improve AWS S3 integration and data organization.
- Reduced API build calls from approximately 52,000 to 1,000 and improved platform performance through caching and data handling optimizations.

Data Analyst Intern | CSR Box 07/2025

- Prepared, cleaned, and transformed healthcare datasets in Excel to improve reporting accuracy and analytical readiness.
- Built interactive Power BI dashboards to track operational, financial, and healthcare performance metrics.
- Analyzed healthcare and insurance data to identify trends, support reporting, and generate actionable insights.

Software Development Engineer Intern | Bluestock Fintech 04/2025 – 05/2025

- Contributed to the frontend architecture of an IPO dashboard by translating mockups into responsive and interactive UI components.
- Worked with financial data presentation to help build a clear and user-friendly dashboard experience.
- Used Git-based version control and collaborated with the team to maintain clean, organized frontend assets.

PROJECTS

Intraday Stock Prediction & Analysis System

- Built a Python-based financial analytics system to analyze historical and real-time market data for trend identification and decision support.
- Integrated technical indicators including VWAP, ATR, RSI, EMA (9/20), Volume, and Relative Delta to identify short-term trading signals.
- Evaluated volatility and noise across different market caps, demonstrating higher efficacy and signal clarity on larger-priced equities compared to lower-priced volatile stocks.

Data Analysis Dashboard | Power BI & SAP Analytics Cloud

- Developed interactive dashboards to analyze sales, profitability, customer segments, and operational performance metrics.
- Performed data cleaning, transformation, and validation to ensure accurate reporting and visualization.
- Generated business insights through KPI tracking, trend analysis, and executive-level reporting.

Danam Donation Platform

- Designed and optimized product data structures for a large-scale e-commerce platform using Next.js, Prisma, and AWS S3.
- Reduced API build calls from approximately 52,000 to 1,000 through data restructuring and caching improvements.
- Improved platform efficiency and scalability by analyzing system performance and implementing optimized data retrieval strategies.

EDUCATION

Bachelor of Engineering (Information Technology) – 8.44 CGPA

Sardar Vallabhbhai Patel Institute of Technology (SVIT), Anand | 2022 – 2026

HSC (12th), GSEB – 84.45 PR

Shree B.M. Commerce Highschool, Bhavnagar | 2022

SSC (10th), GSEB – 98.08 PR

Shree B.M. Commerce Highschool, Bhavnagar | 2020

CERTIFICATIONS

- SAP Certified Associate - Data Analyst (C_SAC_2501) | Completed 6-Month SAP Data Analytics Training Program
- Meta Python Programming Certification (Coursera)
- IBM Python for Data Science Certification (Coursera)
